

Dear BETA tester,

we would like to thank you for taking your time in having a first try on our newly developed PlugIn Kiwi3d. We hope you had a good start using mesh-free finite element analysis!

Because we would like to improve and develop further, we are very interested in your opinion and impressions regarding workflow, setup, usability, software stability and of course also on things which did not performed to what you were aiming at. For this reason, we kindly ask you to support our development by answering questions stated below.

If you have any further recommendation, suggestions, problems, bugs, etc. do not hesitate to get in contact with us directly via [development@kiwi3d.com](mailto:development@kiwi3d.com).

Thank you very much in advance!
